Helping Children in Need

In this teambuilding experience your team will learn to:

- ? Communicate with clarity and congruity**
- ? Enhance and enrich their problem solving and creative thinking skills**
- ? Discover and embrace individual and collective strengths**
- ? Bond as a team**
- ? Experience the pride of a heartfelt contribution**

How it works...

- 1. You and your team mates will recover bike parts through different team building activities & from hidden cryptic search locations that enhance and promote a cohesive team effort.**
- 2. All team members will work collectively together to construct their push bike which will later on be received by a real customer. This process emphasizes that each person is a VITAL component to the successful completion of the TEAM GOAL by ensuring everyone is involved.**
- 3. Finally, it is time for the most powerful and rewarding part of the program. The finished product (Bikes) are donated to children in need or from disadvantaged backgrounds.**
- 4. Unbeknownst to the children and your organisations team-members, the children are brought into the reception area “as customers” at the ready to receive their new bike from the surprised and overwhelmed team members.
*(A great customer service tie in)***
- 5. REMEMBER.....Shhhh The secret of the success of this event is that your staff DO NOT know that REAL CUSTOMERS (underprivileged children) are about to take possession of the bikes they have just assembled!**
